

# LYNCA MEATS

## Internship

INVITATION TO PARTICIPATE IN THE LYNCA MEATS' GRADUATE ENGINEERING PROGRAM 2019

### Who we are

Lynca Meats is one of the largest producers of quality pork products in South Africa. Whilst you may not know us we supply the entire value chain with quality raw material and private label product on shelf both locally and outside of our borders.

We are passionate people and are passionate about touching and inspiring people's lives with our quality meat products which we love.

Lynca has come from humble family beginnings and these Values underpin our culture. Lynca has grown dramatically in size and strength over the past 10 years to the extent that we now employ over 1000 employees in our plants situated near Meyerton, Gauteng. We are recognized industry leaders in the supply of over 50m kgs of great meat products yearly.

We offer a variety of excellent opportunities for those interested in improving their lives. If you have an enquiring mind and your passion is the efficient production of fast moving product in a challenging environment, then this is the opportunity for you.

We are constantly looking for talented young individuals who aim to become more whilst at the same time contribute meaningfully to our business. You will be required to sacrifice upfront with a view to making it in an environment where there are many opportunities down the line.

### Essential Responsibilities

The Lynca Graduate Training Program is designed to enable members to get hands-on experience while working on challenging projects, network with professionals and learn from the brightest minds in the industry.

Due to the rotational nature of the program, members will participate in specific assignments providing a broad exposure to various fields within our business including Project Management, Lean Manufacturing, Engineering / Maintenance, Costing, Capacity Balancing, Management of Teams and Targets, Root Cause Analysis, Systems and so forth. Education will take place through a combination of on-the-job, classroom and on-demand training with mentors standing by to assist.

Post completion of the program, successful candidates will stand a good chance of being offered a position in the business on permanent basis.
